ACADAMIC YEAR 2025-2026 DEPARTMENT OF BOTANY EXTENSION LECTURE

DATE: 10-11-2025

The Department of Botany, TGTW Residential Degree College (Girls), Dammapeta, organized an **Extension Lecture** on 10-11-2025 to enrich students' knowledge and expose them to advanced concepts in the field of Botany. The lecture was delivered by **Dr. N. Naga Sameera**, *Associate Professor of Botany, Government Degree College, and Bhadrachalam*.

The program began with a formal welcome by the Botany faculty, followed by a brief introduction of the resource person. Dr. N. Naga Sameera is well known for her expertise in plant sciences, research experience, and academic contributions.

During the session, Dr. Naga Sameera delivered an insightful lecture on **BIO DIVERSITY AND CONSERVATION**. She explained the concepts in a simple and engaging manner, highlighting the latest research trends and real-life applications in the subject. Students gained valuable knowledge on modern scientific techniques and the importance of Botany in addressing environmental and societal challenges.

The students interacted actively, asked questions, and participated enthusiastically throughout the lecture. The session helped them broaden their understanding and motivated them to pursue research-oriented thinking.

The Principal appreciated Dr. N. Naga Sameera for her valuable contribution and thanked the Department of Botany for organizing such a meaningful academic activity. The program concluded with a vote of thanks.

ACADEMIC YEAR 2025-2026 DEPARTMENT OF BOTANY EXTENSION LECTURE

Organized by: Department of Botany, Government Degree College

Resource Person: Smt. Sarakandi Swarna Kumari

Topic: Biodiversity.

An **Extension Lecture** was organized by the **Department of Botany at Government Degree College** to enhance the knowledge and awareness of students about important topics related to environmental science and biology. The lecture was delivered by **S. Swarna Kumari**, who served as the resource person for the program.

The lecture was to provide students with additional knowledge beyond the regular classroom syllabus and to create awareness about environmental issues and the importance of biodiversity. During the lecture, **S. Swarna Kumari** explained the concept of biodiversity and its significance in maintaining ecological balance. She discussed the different types of biodiversity such as **genetic diversity, species diversity, and ecosystem diversity**.

The importance of biodiversity in human life. She explained that biodiversity provides food, medicines, shelter, and other natural resources that are essential for the survival of living organisms. She also discussed the major threats to biodiversity such as **deforestation, pollution, climate change, and habitat destruction**.

Conclusion:

The extension lecture on **“Biodiversity”** was highly informative and beneficial for the students of the **Department of Botany**. It increased awareness about the importance of biodiversity and the need to protect natural ecosystems. The lecture inspired students to take responsibility for conserving nature and maintaining ecological balance. It was very Informative and successful. It helped students gain a better understanding of biodiversity and encouraged them to contribute to the conservation of the environment.
