

ECO CLUB REGISTER₃

Ecoclub has been established in the year 2019, September in our college.

The club provides a platform to create awareness about biodiversity conservation and local environmental issues by urging people to adapt their daily habits to the most sustainable options and adopt eco-friendly practices like recycling & saving non-renewable resources.

Ecoclub promotes the participation of students in learning about, and improving their environment.

Full form of eco club .

E - Environmental

C - Conservation

O - organization

→ Following are the few eco club activities :

- * Tree plantation
- * Waste management
- * Environmental workshops
- * Eco-friendly initiatives (Avoid plastic usage)
- * Biodiversity conservation
- * Awareness Campaigns
- * Energy conservation
- * Composting programs
- * Wildlife protection
- * Green events (ecomarkets, Green fairs)
- * Community clean-up.
- * Environmental Art projects.
- * Field trips
- * Green challenges

plantation :- June 25, 2020

Plantation programme was organized by our principal Sri. Hanmanthu garu and staff during covid.

The main motto is to foster environmental sustainability by increasing the no. of trees.

Haritha Haram

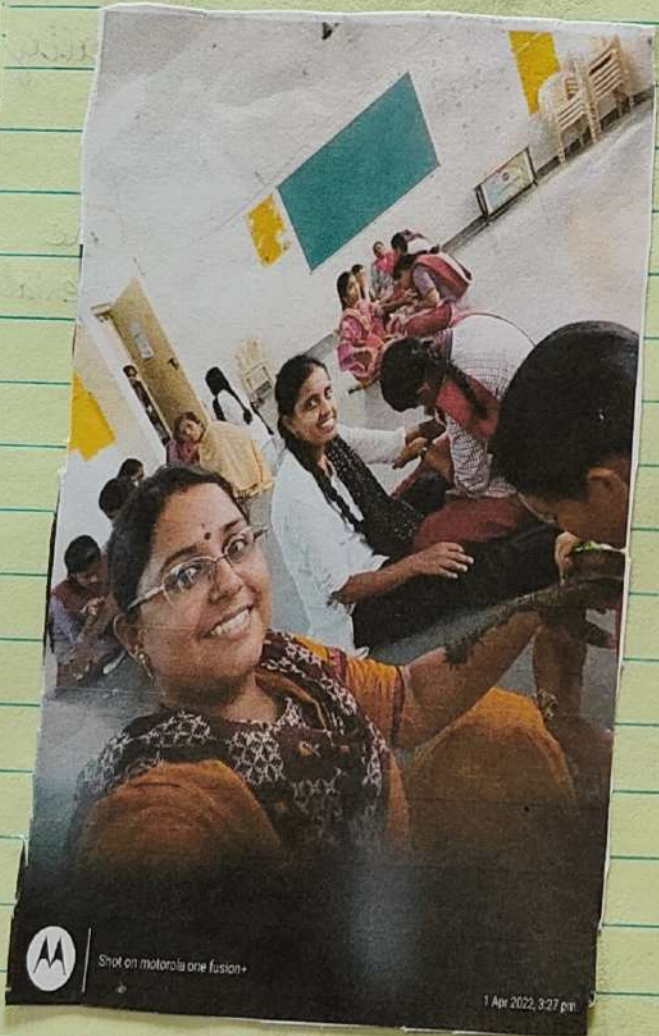

We have planted saplings on July 1, 2021 as a part of "Haritha Haram".

The main objective of it is to increase green cover, improve the environment and promote ecological balance. It also aims to combat deforestation, enhance biodiversity, mitigate climate change and create awareness about the importance of trees in maintaining a healthy ecosystem.

Henna fest :

Eco club members organized henna fest in the campus. They designed students and faculty hands with creative designs.

Bathukamma celebrations :- Sep 26, 2019.

Bathukamma celebrations can be included in eco-club because, it will encourage the use of locally available flowers in Bathukamma making to minimize environmental impact.

- It opts for natural and biodegradable materials.
- It promotes cultural integrity among students.
- It implements effective waste management practices during and after celebrations, ensuring proper disposal and recycling of used materials.
- Involves Community fostering a sense of environmental responsibility among participants.
- Flowers used in Bathukamma has medicinal values, helpful in reducing water pollution after nirmagan.

Ecofriendly Ganesha 30/8/22

Ecoclub has taken initiation to prepare ecofriendly Ganesha idol preparation using farm land soil, clay, turmeric, wheat flour.

To promote sustainable and environmentally responsible practices during festive celebrations. This includes using biodegradable materials, avoiding harmful chemicals and reducing the ecological impact of using hazardous materials.

clean India campaign : 20/10/2022
 (Swachh Bharat Abhiyan)

NSS volunteers along with eco club students have cleaned college premises, Devarakonda RTC bus stand and market area. They disposed litter and plastic waste collected.

Objective :

To achieve a clean and open-defecation free India.

It focuses on promoting cleanliness awareness and ensuring the sustainable and effective disposal of waste to create a healthier living environment for all citizens.

దేవరకొండలో క్లీన్ ఇండియా కార్యక్రమం

దేవరకొండ నియోజకవర్గం కార్యక్రమం - సమాచారం

Recycling of wastes :

Students prepared compost using kitchen waste, left over food, dry leaves, ashes, cow dung, tea dust, egg shells, left over buttermilk etc.

Prepared compost is used for plants of the garden and we gift these plants to the chief guests for special occasions.

The main objective of making compost is waste reduction in the campus.

Waste to Best : " R R R " (Reduce, Reuse, Recycle)

Ecoclub along with entrepreneur cell had organized a stall to exhibit the silk thread bangles made by students. They have used old bangles and made them as creative designer new bangles.

The goal is to minimize environmental impact by promoting recycling, upcycling and innovative waste management practices.

This approach aims to reduce pollution, conserve resources and contribute to a sustainable and circular economy.

Swatchtha hi Seva

All the students had cleaned college premises, Some parents also participated in the programme.

Mehandi fest : 17-3-2023

Students had designed Mehandi on hands to faculty and students. Students showed their innovation and creativity in designing Mehandi.

on April 5, 2023, Eco club members as a part of NSS special camp, designed mehandi for villagers.

Avoid plastic campaign :

Ecoclub along with NCC Students organized an awareness rally to avoid plastic usage as plastic is detrimental to environment.

Students performed skit on ill effects of using plastic and showed how plastic pollutes environment.

Akhada Maasa Gorintaku Mahotsavam :

Ecoclub students along with faculty organized Mehandi fest in the college on July. As a part of this fest, every student decorated her hands with henna.

Students develop aesthetic sense in them and ^{this fest} also promotes tradition and cultural integrity among students.

Lawsonia inermis, Henna has natural conditioning properties & health benefits like it decreases tumors, reduce spasms, relieve pain.

Field visit on Wetlands Day:

This ecoclub activity provides an opportunity to highlight the importance of wetlands, their role in biodiversity and the need for their conservation.

It also serves as an educational activity to increase awareness about the significance of wetlands in maintaining ecological balance.

Field visit on Farmer's Day :

Students were taken to near by groundnut field & interacted with the farmers about the crop, soil type etc.

To create environmental awareness, to promote sustainable farming practices or educational initiatives related to ecology and agriculture.

Landscaping : 15/06/22

B-2.c Students under the supervision of Botany Lecturer T. parameshwari had cleaned college premises and did landscaping for growing vegetable and medicinal plants.

Bio-Diversity Day 29/12/22

To bring awareness about the importance of Biodiversity students of lifesciences were asked to take photographs of the various flora and fauna of the campus and near by area.

This eco club activity not only promotes an appreciation for biodiversity but also raises awareness about the importance of preserving natural habitats and protecting wildlife.

It engages eco club members in environmental conservation and education.
