Activity: World Forestry Day.

Date: 21st March 2021

no. of students participated:

no. of lecturers participated: 02

co-ordinator: Dr. Aparna

purpose of the activity: To create and raise awareness of the importance of forests for people and the planet.

About the activity: The catalyst for forest Day was a casual conversation in Oxford, England in Feb 2007, between two scientists who felt the world was underestimating the importance of forests in mitigating carbon emissions. These well attended discussions examined such issues as setting baselines and methodological challenges in estimating forest carbon markets and governance challenges associated with reducing emissions from deforestation and equity - efficiency trade offs. The activity was started with the principals speech and followed by the faculty and students on importance of forests. The students of B2C group actively participated in the events like plan¹ essay writing and location.

students Feedback:-

1. Forest provide us wth fresh air to breath, had medicines so we should protect plants in our nature.

2. I know plants play a major role in our daily life

Activity = World Earth Day

Date = 22 - March - 2021

No. of students participated = 27

No. of lecturers participated = 08

Co-ordinator - Ch. Apama.

Purpose of the activity = To create and raise awareness on environmental protection among the students and educate them on environmental issues.

About the activity :

Theme :

Earth day is an annual event on April 22nd to demonstrate support for environmental protection. First held on April 22, 1970, it now includes a wide range of events co-ordinated globally by Earthday organization including 1 billion people in more than 193 countries. This activity is particularly focused on eliminating single use plastics and regulating the disposal of plastic at a global level. The exponential growth of plastic is having hugely negative effects from poisoning and injuring marine life to disrupting human hormones from littering our beaches and land scope to clogging our waste streams and landfills. The activity started at 10:am with Principal speech followed by the faculty and students.

Students Feedback :-

1. I have been learn from this program & understanding how to protect ourselves.

2. From this event I have experienced how we can save humans beings and all living beings.

Activity: Environment Day.

Date: 05-06-2021

No. of students participated: 80

No. of lecturers participated: 10

Group: B2C

Co-ordinator: Ch. Aqana.

Purpose of the activity: To create and raise awareness on environmental protection among the students.

Theme: Ecosystem Restoration.

About the activity: Pakistan will act as global host of the Day. The day aims to create awareness among more and more individuals to take certain actions the growing strain on earth's natural ecosystem. A healthy ecosystem directly means a healthy livelihood. Every organism on the planet is dependent on the environment for food, air, water and habitat. Here is all you need to know about world environment day 2021. Plantation was organized by the staff and students participated very actively.

Students feedback:-

1. From this event I learned importance of nature & it's protection without any problems.
2. We should save nature without polluting trees and wastes in our societies.

Activity: Hailtha Haram

Date: 15-06-2019

no. of students participated: 30

no. of lecturers participated: 15

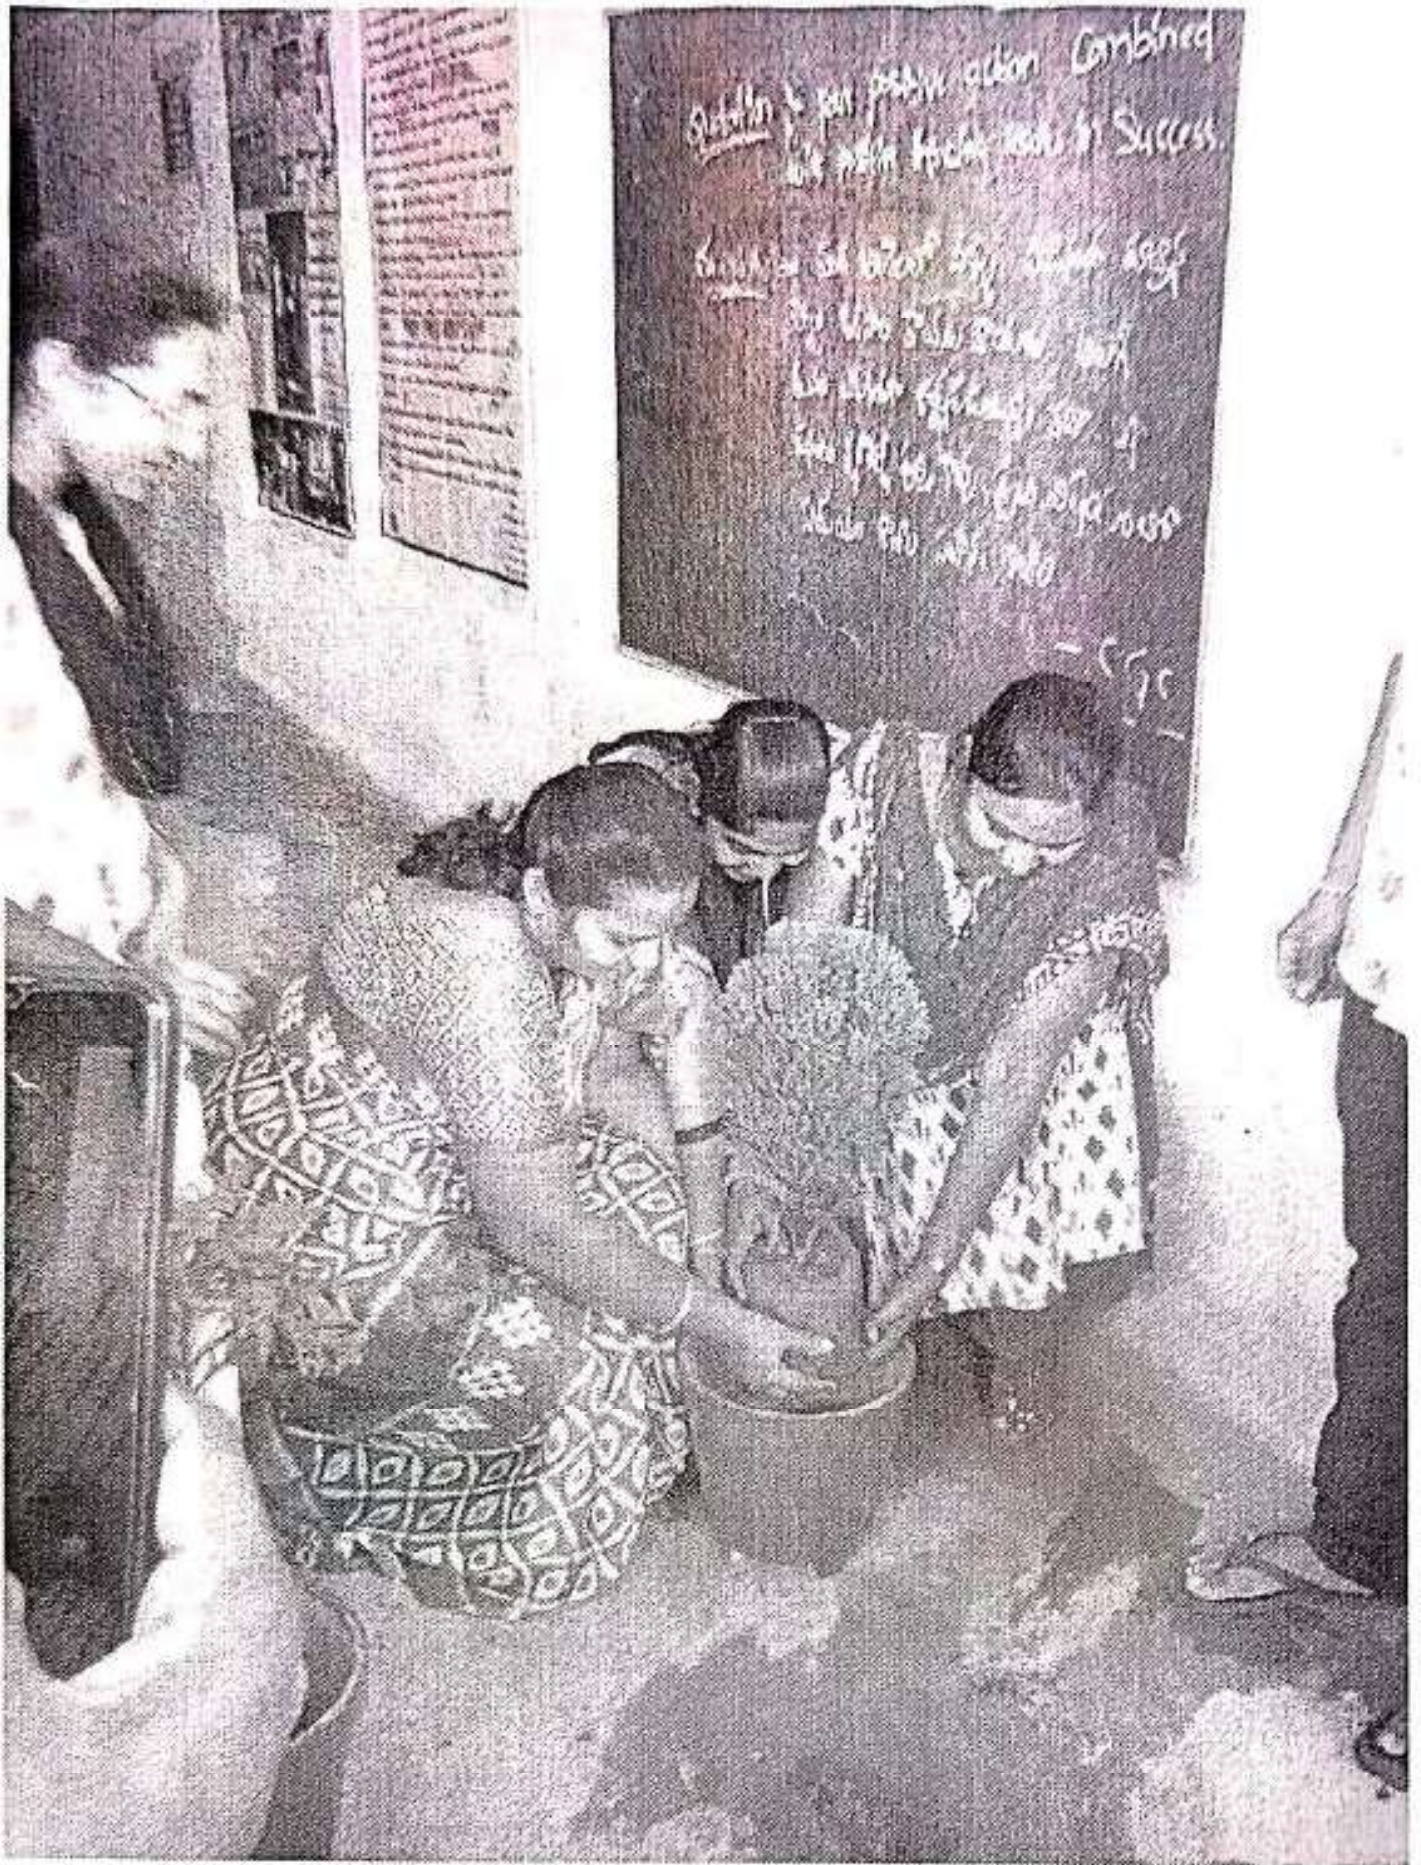

group: B2C

Purpose of the activity: The main objective of the Hailtha Haram programme is to increase the green cover of the state from the existing 24% to 33% by planting

About the activity: All the students and faculty members actively involved in plantation programme. Telangana Ku Hailtha Haram is the afforestation program undertaken by the Telangana government. Hailtha Haram was officially inaugurated by Telangana state chief minister Chandrababu Naidu on 3 July 2015 at Chilkur Balaji Temple. The institutional plantation will be done at schools, colleges, government institutions, hospitals, graveyards, government institutions and private institutions and industries. We collected the samplings from near by Forest office.

Students feedback:-

- 1) we should protect environment by planting trees and creating awareness to the unaware people.
- 2) We should save plants by pouring water.
