Most of the students are from typically from rural background and are first-of-generation learners. When it comes to education, these students face a number of challenges. Especially, at the tertiary level of education, English is identified as posing a great challenge to the rural Indian learners.

Need of the Course:

- Majority of the students enrolled @ TNRDC (S), Manipal have done their schooling in Telugu medium that too in government schools and their exposure to English language is to a minimum level.
- Though English is a language, it is taught as a subject (not as a skill) i.e. the objective is to acquire knowledge and to merely pass the examinations.
- As parents are illiterates and not-exposed to English, the family situation doesn't help in acquiring English language @ home.
- This low proficiency levels in English have a negative impact on learning other subjects.
- Due to lack of good communication skills, students have low confidence levels.
- In present context of globalization levels, the key to success is good communication skills only.

In this context, there is an immense need to conduct classes to improve their communication skills, hence the Dept of English has decided to implement communication skills for English as a certificate course for the students of 'Kundakurra'.

NCC: AT A GLANCE

The NCC, started in 1948, with 20000 cadets, today is the **largest uniformed youth organisation in the world** with more than 14.5 lakh cadets. With Headquarters (HQs) at New Delhi, NCC, a tri-service organisation under the Ministry of Defence, today has 17 State Directorates, 98 Group HQs and 825 NCC Units from Army, Air Force and Naval Wings.

Origin of NCC can be traced back to the “**University Corps**”, which was created under the Indian Defence Act 1917, with the objective to make up for the shortage in the Army. In 1920, when the Indian Territorial Act was passed, the “University Corps” was replaced by the **University Training Corps (UTC)**.

In 1948, the Girls Division was raised in order to give equal opportunities to school and college going girls. The NCC was given an inter-service image in 1950 when the Air Wing was added, followed by the Naval Wing in 1952. In the same year, the NCC curriculum was extended to include community development/social service activities as a part of the NCC syllabus.

The NCC aims at developing character, comradeship, discipline, a secular outlook, the spirit of adventure and ideals of selfless service amongst young citizens. Further, it aims at creating a pool of organized, trained and motivated youth with leadership qualities in all walks of life, who will serve the Nation regardless of which career they choose. Needless to say, the NCC also provides an environment conducive to motivating young Indians to join the armed forces.

Students from Schools and Colleges, join NCC on volunteer basis as Junior cadets for two years and as Senior cadets for three years. Cadets in NCC are exposed to training on Service subjects, Social Service & Community Development, Disaster Management, Attachment training with Army/Air Force/Navy, Sports and Adventure activities. At the culmination of institutional and camp training, successful Junior cadets are awarded 'A' certificate and **Senior cadets are awarded 'B'/ 'C' certificate.**

“**Unity and Discipline**” was taken as motto of NCC in the 12th CAC meeting held on 12 Oct 1980.

QUEST PROGRAM

6/10/2019

Quest is an acronym for 'Quality Utilization and Enrichment of student' in an education system. In the Gurukulam system of Education, Quest program should be taken up by the Principal / Vice Principal and house parents to visit atleast two homes of the students during vacation and interact with their families.

It helps to understand the social, cultural and financial background of the students who are deprived and are meritorious but struggling for timely education support.

During this program teachers visit students home and interact with parents to discuss the programme undertaken by Gurukulam and also seeking the suggestions and opinions of parents for further improvement, which helps in improving administration and making academic plans and thus improve the performance of students.

QUEST By Uma Jain

5/10/2019

During this program faculty of Botany department visited the students houses, which helped the faculty to understand the socioeconomic background of the students and guide them.

Observations during the program:-

- All the parents are illiterate, but satisfied with Gandhian culture & food along with studies.
- They are aware of the activities of programs but cannot name them.
- There is no development in their social & economic conditions even after a long period of Independence.
- The parents are agriculturists and want their children to be government job holders.
- Though they are very poor, they are jovial, loving, caring and affectionate towards the visitors by providing their traditional food to the faculty.
