Report on

182 BIRTH ANNIVERSARY OF FATHER OF MICROBIAL TECHNIQUES - "ROBERT KOACH"

Organised By Microbiology Department

Name of the Event: 182 Birth Anniversary of Rabert Koach

Speakers - D.AMULYA AND MOOD RADHIKA

Date: 11/12/2025

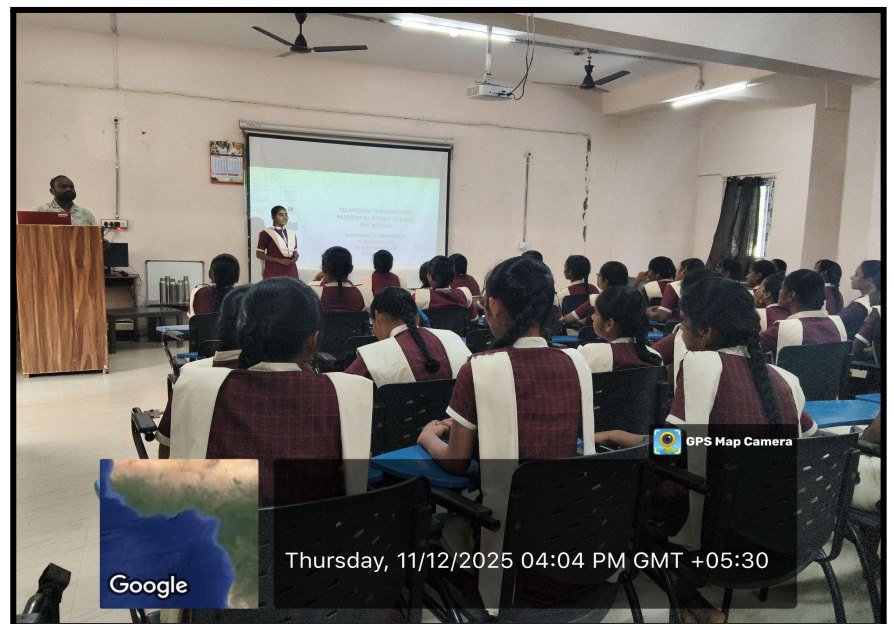

Time: 3.00 PM

No. Participants: 40

The Department of Microbiology organized a Student Seminar on the occasion of the Birth Anniversary of Robert Koch in 2025, with the objective of highlighting his remarkable contributions to the field of medical microbiology.

From the M.B.Z.C. I Year student group,

Ms. Mood Radhika and Ms. D. Amoolya presented seminar talks focusing on Robert Koch's discoveries, including his work on tuberculosis, cholera, anthrax, and the formulation of Koch's Postulates. Their presentations emphasized the significance of his research in modern diagnostic microbiology and public-health advancements.

Faculty members from various departments actively participated and encouraged the students.

From the Botany Department, Ms. Sharth Deepika K attended and appreciated the academic initiative.

From the English Department, Ms. Uzma Begum and Sushma srivatsava participated and motivated the students in developing presentation skills and scientific communication.

From the Chemistry Department, Ms. Preethi Yadav contributed to the program and extended her support toward the successful conduct of the event.

The seminar provided an opportunity for students to enhance subject knowledge, improve scientific awareness, and recognize the historical importance of pioneers in microbiology. The collaborative participation of students and faculty members contributed to the successful organization of the program.

The event concluded with positive feedback and encouragement for conducting more such academic enrichment activities in the future.
