Classroom student Seminars, for the Academic Year

Date: 12/10/2017

A classroom Seminar is conducted by Dept. of Mathematics for BSC MPC & MPCs - I year students, as a regular student development programme as part of co-curricular / and flipped classes activity to develop the skills of understanding the subject and communication

The seminar is given by:

Name of the student: Chivamsi
Year & Group : MPC I year
Topic : Differential calculus.

The following students and lecturers were present for the seminar

Total students present : 35
Lecturers : Vijay Kumar

Student Signatures:

S.No	Roll No	Student Name	Student Sign.

To,

The Principal,

TTWRDC (M) NAGARKURNOOL,

Subject: Request for Permission to Conduct Seminar by Department of Mathematics for the year 2023-24.

Respected madam,

With reference to above mentioned subject, we are submitting herewith the proposal to conduct a **Seminar** as part of our academic activities by the Department of Mathematics of TTWR Degree College Men Nagarkurnool.

We kindly request your permission to approve our proposal for organizing this **Seminar**. We believe that this initiative will significantly contribute to the academic and personal development of our Mathematics students.

Thank you

Dr. U. H.
Principal
TTWR Degree College (B),
Nagar Kurnool - 509 209

Nagar Kurnool, 509309

PI Day celebrations

PI Day Celebrations

On the occasion of Pi Day, Department of Mathematics of TTWRDC(MEN) Nagarkurnool @ Jadcherla, College has conducted a Seminar on 14th March 2024 celebrated this significant day. The main motto of the event is to celebrate the mathematical constant Pi and to let the students know the importance and history of the value Pi

Dr. V. M.
Principal
TTWR Degree College (B),
Nagar Kurnool 509 209

The PI day was celebrated with objective of creating awareness about importance of mathematics in day to day life situation and also to create students interest in studying the Mathematics.

As part of the celebrations, Seminar programme and talk on Mathematics were organized and conducted by . **Mr.Y.Satyanaryana, Mr.Ravi Kandi, Mr. B.Shiva Prasad** . 30 Students from all groups participated in the Seminar programme .The students enjoyed the programme at the maximum.The students participated in the above programme with great zeal and enthusiasm and actively participated in the programme. Respected colleagues Mr.G.Ragavendra, Dr.K.Anjaneyulu,Dr.B.Champla and N.Narendar also graced the occasion and encouraged the students to participate in such activities in future as well.

Subject: Request for Senior Lecturer to conduct seminar at TTWRDC , Nagarkurnool.

Respected Principal sir,

I am writing on behalf of the Department of Mathematics at Telangana Tribal Welfare Residential Degree College Men Nagarkurnool. We are keen to enhance the academic experience of our students and believe that exposure to senior faculty from esteemed institutions can greatly contribute to their learning.

With this in mind, we kindly request your assistance in sending a senior lecturer from your esteemed college to deliver an extension lecture at Telangana Tribal Welfare Residential Degree College Men Nagarkurnool. This lecture will not only provide our students with valuable insights but also foster academic collaboration between our institutions.

We assure you that all necessary arrangements will be made to ensure a smooth and productive visit for the esteemed lecturer. Your cooperation in this matter would be greatly appreciated.

Thank you for considering our request.

Topic : MODERN ALGEBRA

Introduction:

Modern algebra, branch of mathematics concerned with the general algebraic structure of various sets (such as real numbers, complex numbers, matrices, and vector spaces), rather than rules and procedures for manipulating their individual elements

Key Points: Basic Rules and Properties of Algebra

Commutative Property of Addition: $a + b = b + a$.

Commutative Property of Multiplication: $a \times b = b \times a$.

Associative Property of Addition: $a + (b + c) = (a + b) + c$.

Associative Property of Multiplication: $a \times (b \times c) = (a \times b) \times c$

Order of a group, Order of an element

Conclusion :

If the operations satisfy familiar arithmetic rules (such as associativity, commutativity, and distributivity) the set will have a

particularly "rich" algebraic structure.

Sets with the richest algebraic structure are known as fields.

The conclusion of all this is that an equivalence relation on a set is the same as a partition.

Topic : DIFFERENTIAL EQUATIONS

Introduction:

A differential equation is an equation involving derivatives. The order of the equation is the highest derivative occurring in the equation. The first four of these are first order differential equations, the last is a second order equation.

Key Points:

- Ordinary Differential Equations.
- Homogeneous Differential Equations.
- Non-homogeneous Differential Equations.
- Linear Differential Equations.
- Nonlinear Differential Equations

Conclusion :

Ordinary differential equations have several applications and are a potent tool in the study of a variety of problems in the natural sciences and technology; they are widely used in mechanics, astronomy, physics, and a variety of chemistry and biology problems.
