

Best Practices

1. House Meeting Reports

We maintain a mentor-mentee register to systematically track student progress and provide personalized academic and personal guidance. This system strengthens the mentor-mentee relationship, ensuring continuous support and effective communication between students and faculty.

5. **Quest Programs Quest programs involve faculty visiting students' homes to understand their social and economic backgrounds, strengthening the bond between the college, students, and their families. Through these visits, lecturers provide academic guidance and discuss college initiatives with parents, fostering trust and ensuring holistic student development.**

6. **Out Reach Programs and Field Trips We organize outreach programs and field trips to provide students with practical exposure and real-world learning experiences. These activities help students connect theoretical knowledge with hands-on applications in various social, cultural, and professional settings. Outreach and field trips also promote social responsibility, teamwork, and a broader understanding of the world beyond the classroom.**

7. **Impact Meeting We conduct IMPACT meetings to strengthen communication between the college and parents, ensuring they are informed and involved in their child's academic and personal development. These meetings provide a platform to discuss student progress, address concerns, and collaborate on strategies for continuous improvement.**
